February 27, 2012

Present: David Tarver, Jim Summerlin, Linda Lucksinger, Chris Purkiss, Wendy Storms, John Miazga

Firm deadline of March 15<sup>th</sup> for data to be submitted to Marilyn, this will give Marilyn and Dr. Miazga a chance to make any edits for Institutional Report (IR). No chair has been assigned as of yet for the NCATE Committee, per Dr. Miazga.

Standards reports, if you have AFIs they should be addressed first in your narrative. Use standard Times New Roman 11pt font. Reports will have to be cut and paste into online form that NCATE uses, so format needs to be standard.

Exhibit Lists for each Standard are on the website. You need to meet with Wendy individually to tell her exactly what your exhibits are and what they need to be linked to. You can do this via email as well. Standard 1 Exhibits List is up as an example.

Committee needs to formally approve Disposition Implementation Plan of Assessment that Chris Purkiss created. Jim Summerlin made a motion to accept the plan. David Tarver seconded the motion to accept the plan. Unanimous approval by committee.

Final version of conceptual framework was emailed by Marilyn, Miazga and Marilyn have gone through many drafts to get it edited and finalized. The 6 assessment points have to be noted in the IR as we go through it showing that our assessments are driving our program. Wendy will ad CF6 to the everyone drive. Please read over it and make sure it sounds okay to you.

Dispositions: University Supervisor and Student Teacher Dispositions were very aligned, significant agreement between the two raters. Sophomore level Dispositions do not have the same agreement between candidate and instructor. They are very confident at this early stage in their program.

NCTQ (National Council for Teacher Quality) has roughly 100 pieces of data they want to look at from ASU. They formally requested information via email. ASU's estimate is that it will take 30 hours to provide them with the requested data. Once we receive a check from NCTQ we will start working on providing them with the data they have requested. US News and world Report will publish the NCTQ findings next year. Dissolution of public schools is at the bottom of this.
