NCATE Standard 1 October 9, 2012

Members Present: Marilyn Eisenwine, Wendy Storms, Amy Williamson, Sandra Maxedon

Marilyn thinks that the NCATE team did not find the documentation. Maybe the links were not found or they could have been looking at old links? We will hide all of the old NCATE data on the website, to make sure there is no confusion.

Amy thinks they might like the actual information/testing material not the link to ETS site on all Program Assessment 1s.

Changing wording, so to be more specific so that the team can find the data.

List the program review and link to each document.

What do we do with the Disposition Data? Marilyn had a question in the May Data review to see what we do with the data. So she will link the NCATE report to each program in response to the question.

We will link the program comparison chart to the addendum.

1.3 (Disposition Data)

We believe this is incorrect, that the team accidently looked at the incorrect information.

AFI's

Disposition were being looked at in ED 2202 and some ECH courses, so that has been done but we are now expanding

1.4 (Program Data)

Almost AFI's

State and Professional Standards

- TEXES
- Learning Goals

The standards are listed in all of the course syllabi that pertain to the course.

Candidate complaints/appeals?

• Appeals are kept in the EPI Center
